Topics of Discussion:
Discussed BOY Writing Data: Last year data was scored in whole or half numbers, this year is by tenths. All groups except Middle School preforming similarly to EOY data from last year. Middle took a large dip. Discussed if grading is soft as statewide scores were low and possibly reviewing each grade instead of Middle as a group. They may be struggling because this type of data has not been previously tracked. Will discuss further with teachers/student(s).

Discussed Middle School Retention: 1/3 of 8th grade students are new. 4 of 6 8th graders returned, 4 new 7th graders = 6 out of 25 Middle Schoolers are new students.

There will be no supplemental survey to the TELL due to length.

From the Board: Though 3A &3B did not pass, Refi is still in the works. Realigning Middle School to the Jeffco 6-8 model Is the only way to keep MS financially viable and was unanimously agreed upon by the board. Jeffco will make this change in the 18/19 school year and FHM will likely follow. There will likely be another bond issue in 2018.
