#### UIP-Testing

Bree created a shared Google Docs folder for all of the SAC to access the testing data and any other information.

MAP data handed out for K-6th. Analysis included 2nd to 4th grade Geometry dip and 2nd to 3rd grade reading dip. Geometry is possibly a vocabulary issue between Montessori and CC testing. Reading could be due to 2nd being read to and 3rd reading themselves. Historically reading has been higher than math across the entire school. District MAP scores available soon to compare FHM to district.

The framework for the UIP will remain mainly the same as last year. TBD based on further testing scores.

Bree will post more testing data as it becomes available in the shared Google Doc folder for SAC to review.

#### Surveys

District survey in January. Removed comment section. FHM survey goal for Nov/Dec. Details to be worked out next meeting.
